

Automated Waste, Recycling and Yard Waste Collection Carts

How big are the new carts? How much room will be required to store these new carts? These are just a few of the questions we've received regarding the new carts that will be provided to property owners receiving curbside pickup. The following photos and size descriptions are provided to answer those queries.

This cart is similar to the type you will receive for garbage. It is roughly equal to two regular size garbage bags.

Volume	120 litres
Height	93 cm / 36.6 in
Width	48 cm / 18.9 in
Depth	55 cm / 21.7 in

This cart is similar to the type you will receive for recycling and yard waste. You will receive two carts of this size: one for recyclables and one for yard waste.

Each of these carts is roughly equal to three to four bags worth of yard waste or recyclables.

Volume	240 litres
Height	109.9 cm / 43.25 in
Width	62.2 cm / 24.5 in
Depth	70.5 cm / 27.75 in

This large cart is similar to the type that is intended for use in multi-family units where space may be at a premium.

Volume	360 litres
Height	113 cm / 44.5 in
Width	63.8 cm / 25.1 in
Depth	85 cm / 33.5 in
